SCHOOL PROJECT?

Does your child have a science, math, social studies, or language art project that requires some art skills? For over twenty years, I have been an Arts-In-Education Artist and have worked in numerous schools integrating arts into the curriculum. I have help guide students through school projects (solar systems, structures of a cell, pyramids, pottery, posters for demonstrations, etc...) that require knowledge of art materials and academic requirements. Call Jo for more information.

About the Instructor:

Jo Patterson has been a professional artist for over thirty years and an art educator for over twenty years. She has done several artist residencies throughout the United States and Europe working with various ages and groups. Jo has taught classes on drawing, painting, sculpting, mask making, collage, murals, calligraphy, printmaking, textile, faux finishes as well as art history, multi-cultural art projects, portfolio preparation, and more. Jo has also worked as an art educator for twenty-seven art manufacturers and had a project aired on the Carol Duvall Show on HGTV. She is an artist on the Mississippi Arts Commission Teaching Artist Roster.
