

Participation is encouraged for those who have been recently diagnosed as well as for those who have been living with this illness for years. No matter where you are physically, mentally or spiritually in your journey, this training will be beneficial. Caregivers are welcome.

You will be strengthened, challenged and encouraged — but most of all, you will know you are not alone.

Our prayer is for God to use this program to change your life and for you to receive His eternal hope that's contagious!

"It's cancer." Few words have as much potential to turn life upside down and change everything in an instant. More than 1.5 million people will hear these words this year in the United States alone. That's over 4,000 a day!

Everyone knows someone close to them who is dealing with cancer...people we love and care about the most — family, friends and colleagues.

Summit Counseling is pleased to offer this new program by The American Association of Christian Counselors ("AACC") featuring some of the world's leading experts, many of whom are cancer survivors themselves.

Each session will include a video presentation as well as discussions led by a facilitator. Available for further use will be journaling activities/exercises and recommended resources for deeper, individual instruction.
